16 Paddock regulations

Dear participants,

The paddock is the IDM business card. In your own interest, please ensure a professional representation of your team to fans, media and, of course, your sponsors.

Setting up your paddock area also requires mutual consideration, understanding and discipline. Please observe compliance with the 2018 paddock regulations.

These Paddock Regulations are in addition to the regulations applicable at the respective racetrack.

Violations against the following provisions will be reported to the sports commissioners.

16.1 House rules / environment / waste disposal

In addition to the Paddock Regulations listed here, the house rules and the environmental regulations applicable at the respective racetrack must be taken into account. Each participant is obligated to dispose of all tyres and other objects in the facilities provided for this purpose. Illegal waste disposal will be fined. In special cases, illegal waste disposal constitutes a criminal offence.

16.2 House regulations

The racetrack operator and the organiser are entitled to exercise property rights. The instructions of the personnel must be followed.

16.3 Pit and service space

The pit space division and the allocation of the corresponding service area are carried out exclusively by the MOTORRAD action team. The instructions of the IDM series manager, the paddock manager and the paddock crew must be followed.

16.4 Damages

The team or the rider is liable for damage caused by the construction, the dismantling (pegs, asphalt breakage etc.) or the operation (crop/ground damage) of the team infrastructure. This also applies in particular to damage (holes in the asphalt or panel ceiling, cable damage, pipe damage, etc.) which have been caused by driving in pegs or other anchoring means. The same applies to damage in the pit space.

16.5 Commercial activities

All commercial activities on the event grounds, such as the sale of merchandising articles or the provision of services, require the approval of the MOTORRAD action team.

16.6 Catering / Service / Hospitality

The public serving of drinks which are chargeable or free of charge for advertising purposes and the public distribution of food are generally prohibited.

Additional spaces required for guest hospitality will be rented by the organiser for a fee determined by him. They must be registered with the organiser at least two weeks before the start of the event.

In the case of team-internal catering, the environmental conditions applicable at the respective racetrack must be complied with.

16.7 Advertising

The distribution of advertising material in the paddock, such as flyers, give-aways, etc. and the exhibition of products require the approval of the organiser.

The raising of **flags**, setting up **banners**, **flying banners** and **inflatables** and the placing of **banners** on the event grounds is exclusively reserved for **IDM sponsors**.

16.8 Driving/riding in the paddock

Walking pace applies in the entire paddock area. In addition, the road traffic regulations as well as the house rules applicable at the respective racetrack apply.

Driving in the paddock with motorised two-wheelers, quad bikes or similar, as well as with non-racing bikes or sidecars is only allowed on the entire event grounds if they are registered/insured and provided with a special sticker issued by the MOTORRAD action team. This sticker must be clearly visible on the front of the vehicle. Furthermore, point 18 Paddock bikes applies.

Driving in the paddock with motorcycles or sidecars deployed for racing is only permitted on the direct route to training or the race at the times of the respective class indicated for which the participant is nominated.

Driving in the paddock by car, service vehicle, motorhome or tractor is only permitted if the vehicle is equipped with a corresponding vehicle pass and only at the indicated times (see point 16).

16.9 Driving/riding on the racecourse

Driving on the race track with motorcycles or sidecars deployed for race use and approved for this purpose is only permitted at the times indicated in the timetable and only in the respective class vehicle for the corresponding class for which the participant is named.

Driving the race track with cars, motorised two-wheelers, quad bikes or similar, as well as with motorcycles or sidecars not to be raced is generally prohibited.

16.10 Animals in the paddock

Animals are allowed in the paddock only if the rules applicable at the racetrack expressly permit this. The Assen and Hockenheim racetracks attach great importance to the prohibition of animals in the paddock. The MOTORRAD action team makes no consideration for any resulting expulsions from the area.

16.11 Information obligation

Each registered participant is obligated to inform his/her team, guests and the team's sponsors about the contents of this Paddock Regulation.

17 Paddock bikes
